

A full range of stainless steel cable trays

AI Overview

Stainless steel cable trays are widely available in multiple grades, sizes, and configurations for diverse industrial and commercial applications.

Stainless steel cable trays are manufactured in 304 and 316 grades, offering excellent corrosion resistance and durability for demanding environments such as oil, gas, petrochemicals, rail, offshore, marine, nuclear, food processing, and heavy industry applications . They are available in light, medium, and heavy-duty ranges, accommodating different cable loads and installation requirements .

Types and Configurations

- Ladder Cable Trays: Feature horizontal rungs for supporting heavy cables and easy maintenance access .
- Perforated Cable Trays: Provide ventilation and drainage, suitable for general cable management .
- Wire Mesh or Basket Trays: Lightweight and flexible, ideal for data and communication cables .
- Single Rail Trays: Compact design for specific routing needs .

Sizes and Accessories

Stainless steel trays come in ten standard widths ranging from 50mm to 900mm, with a full range of couplers, bends, tees, and risers to configure complex cable routing systems . Height profiles vary from 15mm light duty to 50mm heavy duty, allowing selection based on cable diameter and load requirements . Slot patterns a...
