

ASEAN 10 Gigabit Optical Module Prices

AI Overview

10G SFP+ optical modules in the ASEAN region typically range from \$50 to \$200 per unit, depending on type, distance, and brand.

Price Overview

- **Short-Range (SR) Multimode SFP+ Modules:** These modules, supporting distances up to 300 meters over OM3 fiber, are generally the most affordable, with prices around \$50–\$100 per unit for generic or third-party brands, and higher for Cisco or HP-certified modules .
- **Long-Range (LR) Single-Mode SFP+ Modules:** Supporting distances up to 10 km over OS1 fiber, LR modules typically cost \$80–\$150 per unit, depending on brand and warranty .
- **Extended Range (ER) and ZR Modules:** Modules capable of 40 km (ER) or 80–120 km (ZR) distances are more expensive, often \$150–\$200+ per unit, due to higher-quality lasers and stricter compliance with standards .

Factors Affecting Prices

- **Brand and Certification:** Cisco, HP, Brocade, and other OEM-certified modules are priced higher than generic or third-party modules, which can save up to 50–80% on cost while maintaining compatibility .
- **Distance and Wavelength:** Modules with longer reach (LR, ER, ZR) or specialized wavelengths (1310 nm, 1550 nm) are more expensive than short-range 850 nm SR modules .
- **Supplier Location:** Purchasing from regional warehouses in Singapore, Malaysia, or Thailand can reduce shipping costs and lead times compared to importing from the...
