

ASEAN Fireproof Galvanized Cable Tray Prices

AI Overview

Fireproof galvanized cable trays in ASEAN typically range from around ₱1,310 to ₱5,300 in the Philippines, with prices varying by size, material thickness, and galvanization method.

Price Overview

In the Philippines, galvanized cable trays are priced between ₱1,310.24 and ₱5,307.10, depending on dimensions, material thickness, and type of galvanization . Online marketplaces like Lazada offer various sizes such as 100x100 mm, 100x300 mm, and other custom dimensions, often with fireproof coatings and hot-dip galvanization for enhanced durability . Bulk purchases or factory-direct orders from suppliers like Alibaba or Perkasa Tray in Indonesia can provide more competitive pricing, especially for larger projects .

Factors Affecting Price

- **Material and Galvanization:** Hot-dip galvanized trays are generally more expensive than pre-galvanized ones due to superior corrosion resistance and longer lifespan .
- **Size and Dimensions:** Larger trays (width and height) and longer lengths increase material usage and cost .
- **Fireproof Coating:** Trays with fireproof plastic spraying or additional protective layers are priced higher due to enhanced safety standards .
- **Accessories and Customization:** B-type hanging frames, brackets, and other accessories can add to the total cost, especially if customized
