

American Fire-Resistant Cable Tray Company

AI Overview

Leading US companies providing fire-resistant cable trays include EAE USA, Enduro Composites, Basor Electric, Invicta Durasteel, and Atkore, offering solutions for industrial, commercial, and critical infrastructure applications.

Key US Companies and Offerings

EAE USA specializes in FRP/GRP (fiberglass reinforced plastic) cable trays that are fire-resistant, halogen-free, and UL 94 V0 rated. Their trays are lightweight, corrosion-resistant, and suitable for harsh environments such as chemical plants, tunnels, bridges, and marine facilities. They meet IEC 61537 and NEMA FG-1 (UL568) standards, providing safe cable management under high temperatures and challenging conditions. Enduro Composites is a North American leader in fiberglass-reinforced cable trays, serving utilities, transportation, and wastewater facilities. Their products offer high dielectric strength, fire resistance, and superior strength-to-weight ratios, making them ideal for high-voltage and coastal installations. Basor Electric focuses on fire-resistant cable trays tested to maintain circuit integrity during fires. Their systems are designed to ensure the functionality of critical installations such as smoke extractors, emergency lighting, and fire alarms, complying with rigorous fire resistance standards. Invicta Durasteel provides fire-rated cable enclosures assessed under BS EN 1366-5:2003 standards. Their solutions protect life-safety cables and are suitable for projects requiring high fire safety performance. Atkore offers the Cope-GLAS fiberglass cable tray system and aluminum I-beam ladder trays. Their products are designed for fire alarm, communication, and contro...
