

Analysis of Optical Cable Price Trends in China

Overview

This report provides an in-depth analysis of the optical fiber cables market in China. Within it, you will discover the latest data on market trends and opportunities by country, consumption, production and price developments, as well as the global trade. Since late 2025, the global optical fiber industry has entered an unexpected cycle of supply tightness and rapid price increases. In 2024, China accounted for a dominant share of global production, exceeding 737,000 tons, a volume more than triple that of the United States, the world's. China Telecom has officially released a 2026 emergency procurement project for outdoor fiber optic cables in Heilongjiang Province, with a total budget exceeding RMB 55. Unlike traditional centralized tenders, this project: The procurement focuses. In the latest Optical Fibre and Cable Market Outlook, CRU examines the recent acceleration in fibre pricing and the tightening supply conditions emerging in early 2026. China's optical fiber, bundle and cable market is experiencing steady growth with consumption reaching 420K tons in 2024 and projected to expand to 523K tons.
