

Attenuator Type Optical Attenuator Company

AI Overview

Top manufacturers of optical attenuators include Viavi Solutions, DiCon Fiberoptics, ARCoOptix, OZ Optics, and Keysight Technologies, offering both fixed and variable attenuator solutions.

Leading Manufacturers

Viavi Solutions, Inc. (Arizona, USA) produces a full range of optical attenuators for singlemode and multimode fibers, including compact handheld devices for field, lab, and production environments. Their products cover fixed and variable attenuators suitable for installation, maintenance, and photonic-layer applications . DiCon Fiberoptics (Richmond, California) manufactures fiber optic components, including fixed and variable optical attenuators, optical switches, couplers, and splitters. Their attenuators are used in telecommunications, data centers, aerospace, medical, and industrial applications . ARCoOptix S.A. specializes in high-precision optical components, including attenuators for laboratory and industrial use, focusing on stability and wavelength-independent performance . OZ Optics Ltd. offers a broad range of fixed and variable attenuators operating over the C-Band and L-Band, ideal for DWDM systems. Their attenuators are wavelength-insensitive, provide low return loss, and support a wide attenuation range for high-power optical systems . Keysight Technologies, Inc. (Santa Rosa, California) provides optical laser source solutions and test equipment, including attenuators for high-precision measurement and network testing applications
