

Automatic Temperature Control in Distribution Box

Overview

This document describes the design and implementation of an automatic temperature monitoring and control system for electric power distribution panels. 1°F, IP65 Water Resistant Rating, Galvanized Steel (15. 1") We offer easy, convenient returns with at least one free return option: no shipping charges. Monitor for Distribution Box or Cabinet in Real Time Temperature Monitoring System - Temp. Adjustable temperature control switch thermostat controller for distribution box, find. Distribution box cabinet is installed with a large number of thermal relays, circuit breakers, capacitors and other devices, these devices in the use of the process will produce a lot of heat, if it produces heat can not be emitted in a timely manner, it is possible to burn these devices, and even. Automatic Activation: Heat-triggered system activates instantly during fire incidents DIN Rail Mounted: Easy installation inside LV distribution boxes and panels Aerosol Fire Suppression: Fast and efficient fire extinguishing without water or gas Safe for Electrical Systems: Non-conductive and.
