

Brazilian fiber optic transceiver connector manufacturers

AI Overview

Key Brazilian manufacturers include Padtec, Wolon, Furukawa, Cabletech, and Fibramérica, offering a range of fiber optic transceivers, connectors, and related infrastructure.

Leading Manufacturers

Padtec is a Brazilian technology leader specializing in DWDM systems and high-performance optical transceivers. Their products are designed for long-distance optical transport networks and large carriers, providing robust 100G/200G/400G coherent solutions with strong local support, though at a higher cost suitable for large-scale deployments. Wolon focuses on regional ISPs, integrators, and distributors, offering SFP, SFP+, and QSFP28 modules compatible with major brands like Mikrotik, Huawei, ZTE, Cisco, and Ubiquiti. Wolon provides factory-direct pricing and white-label options, making it a cost-effective choice for day-to-day network expansion. Furukawa Electric LatAm serves structured cabling and corporate clients, providing high-quality optical fiber solutions, including fusion and structured cabling, and is recognized for its reliability in corporate and enterprise networks. Cabletech manufactures fiber optic cables and connectors, including pre-connectorized and DROP fiber cables, with four manufacturing parks in Brazil. They emphasize high performance, certified products, and sustainability in their production processes, serving both domestic and international markets. Fibramérica engineers and manufactures fiber optic infrastructure, including splitters, couplers, adapters, WDM modules, and pre-terminated assemblies. They provide complete solutions for telec...
