

Cable tray form annotation

Overview

Click Systems tab Electrical panel Cable Tray. On the Options Bar, specify the width, height, offset, or bend radius. On the ribbon, verify that Tag on Placement is selected to tag the cable. You can specify labels or flow arrows to be added to cable tray runs as you draw them. You can also specify the hatch pattern to apply. To specify a.

Specialized/Sigma Factory for Steel Products (SFSP) was first established in KSA in 1989 and has been expanding ever since through a variety of products and through its geographical presence. Production at the factory is observed using modern practices of manufacturing methods in the steel. Annotating Electrical System Drawings The topics in this section describe how to create and modify panel schedules for your electrical drawings. For information about annotating the drawings using other elements, such as labels, tags, and documentation symbols, see Creating Construction Documents. Hubbell Take Off Support provides the contractor, engineer, end user a completed BOM, including all related products, counts, symbol legends and information required to price a project. This page lets you define Label and Leader line options.
