

Calibration of Optical Communication Tester in Morocco

AI Overview

Optical communication test instruments in Morocco can be calibrated at accredited laboratories offering ISO/SEI 17025-compliant services with traceability to international standards.

Accredited Calibration Laboratories

Several laboratories in Morocco provide professional calibration services for optical and other precision instruments:

- MCL Maroc offers multi-parameter calibration and metrology services across Morocco, including Casablanca, Rabat, Marrakech, and Tangier. Their laboratories are equipped with standards traceable to international chains like COFRAC and SEMAC, ensuring high accuracy and compliance with global metrology standards .
- Metrotec Services in Casablanca is accredited ISO/SEI 17025 and provides calibration for industrial, pharmaceutical, and laboratory instruments. They offer precise calibration, verification, and maintenance of measurement devices, including optical sensors and communication test equipment, with full traceability and compliance with international norms .
- Trescal Casablanca provides verification and calibration services for a wide range of instruments, including oscilloscopes, multimeters, and other electronic measurement devices used in optical communication testing. Their services ensure traceability to international standards and include repair and maintenance
