

Cameroon Connector Box 6 Cores

AI Overview

A 6-core fiber connector box in Cameroon is available for both indoor and outdoor use, offering IP65-IP68 protection, integrated splice management, and optional splitter installation.

Overview

A 6-core fiber distribution or termination box is designed to manage and protect fiber optic cables, supporting direct connections, branching, and continuous connections. These boxes are compact, durable, and suitable for both fusion and mechanical splicing. They typically include a splice cassette and cable management system to maintain proper fiber bend radius (over 40mm), ensuring minimal signal loss and reliable performance .

Key Features

- Protection Level: IP65 to IP68, making it suitable for outdoor environments and resistant to dust and water .
- Cable Management: Integrated system to organize fibers and maintain proper bend radius.
- Splitter Compatibility: Some models allow installation of a 1*4 PLC splitter for network branching .
- Ports: Usually 4 cable entrances for FTTH drop cables, supporting multiple fiber connections.
- Material: Durable ABS or similar materials for mechanical strength and weather resistance
