

Chinese and European laser diode manufacturers

AI Overview

Leading laser diode manufacturers in China include Vivlaser, Everbright, BWT, and Raycus, while in Europe, notable companies include Frankfurt Laser Company, PhotonTec Berlin, and LASER COMPONENTS.

Chinese Laser Diode Manufacturers

China has become a major hub for semiconductor laser diode production, supported by advanced epitaxy, packaging technology, and a strong domestic market . Key manufacturers include:

- Vivlaser: Specializes in semiconductor laser diodes and pump sources, offering high-power diode lasers, 445nm blue lasers, and multi-wavelength lasers. Known for vertical integration from epitaxy to coupling and strong customization capabilities .
- Everbright: Focuses on industrial and scientific laser applications, providing high-power diode lasers and modules.
- BWT: Supplies laser diodes for medical, industrial, and communication applications.
- Raycus: Offers fiber-coupled diode lasers and high-power modules for industrial processing and scientific research. These companies are recognized for their innovation, IP strength, and ability to serve both domestic and international markets, particularly in industrial manufacturing, medical aesthetics, and communications .
