

Cleanroom Panel Hanging Cable Tray

AI Overview

Cleanroom panel hanging cable trays are specialized support systems designed to securely route and manage cables in contamination-controlled environments while maintaining hygiene and ISO-class compliance.

Overview

Cleanroom cable trays are essential for organizing power, signal, and communication cables in environments where airborne particle control is critical, such as semiconductor, pharmaceutical, and aerospace facilities . These trays support both static and dynamic cabling, ensuring safe routing while allowing for future upgrades or reconfigurations .

Materials and Hygiene Compliance

- **Stainless Steel Construction:** Most cleanroom cable trays are made from 304L or 316L stainless steel, which provides corrosion resistance and can withstand harsh cleaning chemicals and high temperatures .
- **Smooth, Open Design:** Trays are designed with minimal surfaces where dirt or bacteria can accumulate, facilitating easy cleaning and reducing contamination risk .
- **ISO Class Certification:** Components are often certified for ISO Class 1 or higher, ensuring compliance with strict cleanroom standards .

Hanging and Mounting Systems

- **Aluminum Profiles and Hangers:** Panels and trays are typically suspended using al...
