

Construction site electrical distribution box inspection price

AI Overview

Inspecting electrical distribution boxes at construction sites typically costs between \$100 and \$400 per inspection, with commercial or complex sites charged per circuit or panel, depending on size and complexity.

Typical Pricing

For commercial or construction sites, inspection costs are generally calculated per circuit or per distribution board. Basic inspections for small or straightforward panels may start around \$100-\$200, while larger or more complex systems with multiple circuits, three-phase boards, or sub-mains can range from \$10-\$20 per circuit or up to \$400 for comprehensive inspections. Factors such as site accessibility, remote locations, and specialized equipment can increase the cost.

What the Inspection Covers

A distribution box inspection ensures the safety and reliability of the electrical system. Key components checked include:

- Residual Current Devices (RCDs) and fuses
- Wiring integrity and connections
- Main switch and connection points
- Earth leakage circuit breakers and circuit breakers
- Overall condition of the distribution system The inspection identifies potential haz...
