

Cost of relocating the power distribution box for the project

AI Overview

Relocating a power distribution box typically costs between \$1,000 and \$4,000, depending on complexity, panel type, and distance.

Cost Overview

The total cost of moving an electrical panel (breaker box or fuse box) varies widely based on project complexity. Simple relocations with minimal circuit rerouting and short distances can cost around \$1,000 to \$1,500, while typical mid-range moves average \$1,500 to \$3,000. Complex or premium relocations, such as moving multi-gang or weatherproof exterior panels with trenching and permit processing, can reach \$3,000 to \$4,000 .

Key Cost Factors

- **Panel Type:** Breaker boxes are more labor-intensive than fuse boxes, and subpanels have their own cost range (\$1,000–\$3,000) depending on size and amperage .
- **Distance and Accessibility:** Longer wiring runs, difficult-to-reach locations, or concealment in finished walls increase labor time and materials .
- **Labor Rates:** Licensed electricians typically charge \$50–\$150 per hour, with complex jobs requiring 4–14 hours or more .
- **Materials:** New wiring, conduit, and panel components can add \$60–\$600 depending on specifications .
- **Permits and Inspections:** Permit fees range from \$50 to \$350, and inspections are...
