

Custom Price of 96-core Fiber Optic Cable for Smart Buildings

AI Overview

A custom-made 96-core fiber optic cable typically costs between \$0.50 and \$6 per foot, depending on fiber type, construction, and additional features.

Estimated Material Costs

For a 96-core fiber optic cable, the price varies based on specifications:

- Single-mode (OS2) fiber: \$0.50 to \$2.80 per foot for standard bulk cables, with premium brands like Corning costing more due to lower attenuation and higher quality glass .
- Multimode (OM3/OM4) fiber: \$1.50 to \$6.00 per foot, reflecting the higher manufacturing complexity and performance for high-speed data applications .
- Armored or specialized jackets: Adding steel tape armor, plenum-rated, or LSZH jackets can increase costs to \$1.15–\$6.50 per foot .
- Pre-terminated or factory-assembled cables: These can add 20–30% to the material cost but reduce installation labor significantly .

Customization and Supplier Options

Custom cable manufacturers like Amphenol Custom Cable allow clients to configure cables for smart building applications, including:

- Indoor/outdoor ratings...
