

Dashed lines in cable tray diagram

Overview

Future circuits and future equipment should be indicated by dashed lines and clearly marked as future circuits or future equipment on every drawing where applicable. Luminaire symbols should be drawn whenever possible in their appropriate proportions, orientation, and shape. You can make conduits and cable trays that are dashed in Design Master Electrical using the steps outlined below. There are some limitations to using dashed conduits and cable trays. In order to make these diagrams easier to read and interpret, specific symbols are used to. This document contains a drawing list for cable tray layouts on multiple floors of a building. Use of NEIS is voluntary, and the National Electrical Contractors Association assumes no. Download a comprehensive set of Cable Tray Installation CAD Blocks in DWG format, ideal for electrical engineers, MEP designers, and industrial layout planners.
