

Domestic Single-Mode Fiber Optic Manufacturers

AI Overview

Key U.S. manufacturers of single-mode fiber optics include Corning, OFS Optics, Prysmian, and Custom Wire Industries, all offering domestically produced fibers for long-haul and high-performance applications.

Leading U.S. Manufacturers

Corning Inc. Corning is a global leader in fiber optics, holding over 10% of the global market share. The company pioneered low-loss optical fiber technology in 1970 and continues to innovate with ultra-low-loss single-mode fibers for long-distance telecommunications and data center applications. Corning manufactures domestically and supports government and enterprise projects requiring Build America, Buy America compliance . **OFS Optics** A subsidiary of Furukawa Electric, OFS Optics specializes in advanced fiber-optic technologies for telecommunications, medical imaging, and defense. With U.S.-based manufacturing facilities, OFS provides single-mode fibers, preforms, patch cables, and specialty fibers for long-haul and high-speed networks . **Prysmian Group** Prysmian has a long history of U.S. fiber production, dating back to its legacy with Pirelli, Alcatel, and General Cable. Their single-mode fibers, including BendBright™ and ColorLock™ coated fibers, are designed for long-distance, metro, and national broadband networks. Prysmian fibers are manufactured in North America and meet BEAD and BABA requirements . **Custom Wire Industries** Custom Wire Industries produces single-mode fiber optic cables for high-speed data transmission and long-distance connectivity. Their products are tailored for enterprise networks, data centers, and specialized applications requirin...
