

Double sliding door of the distribution box

Overview

If the box body is designed as a double-sided sliding side door, the cargo can be loaded and unloaded on both sides at the same time, which is more efficient when used with a forklift or conveyor belt. The EZ box and EZ trim have been designed for faster, more secure and safer installations. Contact the supplier about freight and estimated delivery time. Every payment you make on Made-in-China. com is protected by the platform. Claim a refund if your order doesn't ship, is missing, or arrives with product issues. Gland plate with sealing gasket, lock. Allied Moulded's Sliderbox family of adjustable wall and ceiling boxes was designed for applications where the wall substrate thickness goes beyond the standard wallboard. With Sliderbox, there's no need to remove or relocate mounting screws to reposition the box, saving you time and money. It allows the mounting of modular devices on 12 modules of 18 mm.
