

Dutch Fiber Optic Communication

Overview

Odido is the first provider for internet, TV, and telephony via our fiber optic network in many places, but Fiber. Thanks to Open Dutch Fiber's open network, you can choose the provider and package that best suits your needs. This means. Eurofiber is a key player in the fiber optic telecommunications sector, offering extensive coverage with over 70,500 kilometers of open network across multiple countries. They provide high-quality and reliable fiber-optic connections to over 12,000 locations, supporting the digital transformation. Fibre optics offer lightning-fast internet speeds and a stable, ultra-reliable connection, whether you're in Amsterdam's bustling city centre or deeper in the suburbs. This has been revealed by the latest figures in the Telecom Monitor of the Netherlands. The number of Dutch households with a fiber-optic subscription has surpassed the number with fixed internet via cable for the first time, the Netherlands Authority for Consumers and Markets (ACM) stated in their most recent Telecommonitor. In the first three months of this year, 3.
