

European Low-Voltage Busbar Manufacturers

AI Overview

Top European low-voltage busbar manufacturers include Sykatec GmbH, BKS stromschienen AG, Promet AG, Licht + Technik Aachen GmbH, and Eta-com, each offering high-quality, customizable solutions for industrial and commercial applications.

Key Manufacturers and Offerings

Sykatec GmbH (Germany/Romania) Sykatec specializes in copper and aluminum busbars for low, medium, and high-voltage applications. They provide customized busbar systems, including complex shapes and DC link rails, with a focus on high-quality manufacturing, short lead times, and digitalized production processes. Their facilities in Erlangen and Sibiu enable flexible production and assembly, ensuring reliability and precision for industrial power transmission needs . BKS stromschienen AG (Switzerland) BKS offers low-voltage cast resin busbars (IP68) and metal-enclosed busbars (IP55) with current ratings from 400A to 6150A. They also provide medium-voltage solutions up to 24 kV and specialized lighting busbars for small loads (25A-40A). BKS emphasizes robust insulation, high mechanical strength, and versatile applications in industrial and commercial installations . Promet AG (Switzerland) Promet AG is one of Europe's largest busbar processors, producing copper, aluminum, and Cuponal busbars. They focus on precision manufacturing, material optimization, and fully automated production. Promet supports clients through all project phases, from material selection to construction and economic optimization, offering customized solutions with high conductivity and efficiency . Li...
