

Factory cable tray costs

AI Overview

Cable tray prices from factories typically range from \$2 to \$25 per meter, depending on material, type, and finish.

Price Range and Factors

The average factory price per meter for cable trays varies widely: \$2 to \$25, influenced by material, tray type, size, and surface finish . Bulk orders often reduce the per-meter cost. Key factors affecting pricing include:

- **Material:** Galvanized steel is common and cost-effective, stainless steel is more expensive but corrosion-resistant, aluminum is lightweight and rust-proof, and plastic trays are budget-friendly but unsuitable for heavy loads .
- **Tray Type:** Ladder trays are pricier due to their load capacity, while wire mesh or perforated trays are cheaper and suitable for lighter cables .
- **Coating/Finish:** Hot-dip galvanized (HDG) trays are durable outdoors but cost more, powder-coated trays offer wear protection and color options, and pre-galvanized trays are cheaper but less durable in corrosive environments .
- **Customization:** Factory-direct or OEM trays can be tailored for specific dimensions, load capacities, or branding, which may affect price .

Cost-Saving Tips

- Ordering in bulk can significantly lower costs.
- Choosing perforated trays instead of ladder trays can save around 15% if heavy load capacity is not required
