

Fiber Optic Corrugated Pipe Price

AI Overview

Fiber optic corrugated HDPE pipes start at approximately \$0.20 per unit, with prices varying by type, diameter, and length.

Pricing Overview

The cost of fiber optic corrugated pipes depends on several factors:

- Pipe Type: Single wall pipes are more economical, while double wall pipes offer enhanced strength and impact resistance, suitable for direct burial in rocky or unstable terrain .
- Perforation: Non-perforated pipes are used in dry areas for watertight protection, whereas perforated pipes allow drainage in wet conditions .
- Diameter and Length: Pipes come in various diameters to accommodate different cable sizes, and lengths can range from short coils to long reels, affecting the unit price .
- Material: Most fiber optic corrugated pipes are made of HDPE, providing flexibility, durability, and resistance to crushing .

Price Examples

- Wholesale starting price: \$0.20 per unit for standard corrugated HDPE pipes .
- Custom options: Pipes with spiral or S-shaped designs, or custom lengths and colors, may cost more depending on specifications .
- Reel lengths: Standard reels can range from 250 ft to 5000 ft, with sequential footage markings and color coding for easy identification
