

Flame-retardant manufacturers of telecommunications equipment chassis

AI Overview

Key manufacturers of flame-retardant telecom enclosures include Charles Industries, Changhe Enclosures, U-TECK, and other industrial suppliers offering fire-resistant solutions.

Leading Manufacturers

Charles Industries provides telecom cabinets and enclosures designed to protect critical network infrastructure. Their solutions are customizable, weather-resistant, and can be tailored to meet specific network architecture requirements, including fire-retardant options . Changhe Enclosures specializes in die-cast aluminum alloy telecom enclosures with fire-retardant materials. Their products offer IP65 ingress protection and can be customized in size, color, and molding to meet specific telecom equipment needs . U-TECK manufactures fire-retardant backboards for telecom and datacom installations. These backboards are Class “A” rated per ASTM E84, constructed from high-quality plywood with intumescent fire-retardant paint, suitable for both interior and exterior applications . Industrial Suppliers on DirectIndustry list multiple brands such as OKW, TAKACHI, and YSCABINET that offer flame-retardant enclosures suitable for telecom equipment. These suppliers provide a range of sizes and materials to meet professional and regulatory requirements .

Key Features to Consider

- Material and Fire Rating: Look for enclosures made from fire-retardant plastics, al...
