

French Warranty QSFP-DD Optical Module QSFP28

AI Overview

QSFP-DD and QSFP28 optical modules typically come with manufacturer warranties that cover defects in materials and workmanship, and these warranties are generally valid in France when purchased through authorized distributors or resellers.

Warranty Coverage

Most QSFP-DD and QSFP28 modules, whether from major brands like Cisco, Smartoptics, or third-party MSA-compliant manufacturers, include a limited warranty that covers:

- Defects in materials or workmanship
 - Replacement or repair of faulty modules
 - Support for interoperability issues when used according to specifications
- The warranty period usually ranges from one to five years, depending on the manufacturer and the type of module (e.g., 400G, 800G, or breakout modules).

French Market Considerations

In France, warranties for optical modules must comply with EU consumer protection laws, which generally provide a two-year minimum legal warranty for products purchased by end users. This is in addition to any manufacturer-specific warranty. Authorized distributors in France often provide:...
