

Galvanized Cable Tray Brand Prices

AI Overview

Galvanized cable trays are priced between \$2.5 and \$17.6 per unit, depending on type, size, and galvanization method.

Price Range and Types

Galvanized cable trays vary in price based on their design, material thickness, and surface treatment. Hot dip galvanized steel trays, which offer superior corrosion resistance, are priced from \$2.5 to \$17.6 per unit for wholesale orders starting at 10 units . Common types include:

- Ladder trays: Strong, ladder-like structure for heavy cable bundles.
- Perforated trays: Base with holes for ventilation and mid-weight support.
- Solid bottom trays: Continuous base for full cable protection.
- Welded trays: Fully welded joints for enhanced structural integrity .

Factors Affecting Price

Several factors influence the cost of galvanized cable trays:

- Galvanization method: Hot dip galvanizing generally costs more than pre-galvanized options but provides longer durability .
- Tray dimensions and load capacity: Larger trays or those designed for heavy loads are more expensive.
- Customization and OEM options: Custom sizes or factory-direct orders may offer competitive pricing but can affect lead time
