

German High Voltage Enclosed Busbar Price List

AI Overview

High voltage enclosed busbars from German suppliers can be quoted quickly through digital configurators or direct contact, with options for copper, aluminum, or stainless steel enclosures for 3.3kV to 33kV systems.

Suppliers and Quotation Options

buzzbar® specializes in custom busbars made in Germany from copper, aluminum, or CoppAl®, suitable for switchgear, control cabinets, and other applications. Using their digital busbar configurator, engineers can design busbars, save configurations, and request a quotation directly. Standard busbars are delivered within 7 working days, and quotes are typically provided within one day after submission. Abtech Busbar Box offers high voltage enclosures for 11kV systems, suitable for hazardous areas (ATEX Zone 1 and Zone 2). These enclosures are made from 316L stainless steel, support multiple conductors per phase, and are certified for offshore and industrial applications. Pricing and delivery are available via direct contact with T&D UK, who provide competitive quotes and worldwide shipping. EMS Power provides custom high current busbars made of copper, Cuponal, or aluminum, manufactured in Germany and Poland. They focus on tailored solutions for industrial and high voltage applications, and pricing is available upon request. Intercable Automotive Solutions develops high voltage busbars for electric vehicles, optimized for specific EV models using advanced simulation and manufacturing techniques. Quotes are provided based on design requirements, materials, and flexibility needed for the application
