

How long is the cable tray 15075

AI Overview

The standard length of the cable tray 15075 is 3 meters (approximately 10 feet).

The MR15075 cable tray from Schneider Electric is a straight reduce PVC tray that transitions from 150mm to 75mm in width . While the product page does not explicitly list the length, most cable trays in industrial and commercial applications are manufactured in 3-meter segments, which is a common standard for ease of transport, installation, and modular assembly . This length allows the tray to cover long distances efficiently while remaining manageable for handling by two people.

Additional Specifications

- Width: 150mm reducing to 75mm
- Depth/Sidewall Height: Typically 25mm for this type of tray
- Material: PVC (for MR15075) or zinc magnesium steel for similar models
- Usage: Suitable for power and data cables, ensuring proper ventilation and heat dissipation

Practical Considerations

When planning installation, it is recommended to:

- Verify support spacing: Standard cable trays require supports at regular intervals to prevent sagging.
- Allow for expansion: Modular 3-meter lengths can be joined with couplers or fittings to accommodate longer runs....
