

How many units is a 144 optical distribution box

Overview

This 144C modular ODF is composed of 12pcs pre-loaded 12C splicing and patching unit that includes FC/SC/ST/duplex LC compatible adaptors, pigtails and 12 core splice tray. Integrated design provides OSP cable fibers and pigtail splicing, patch-cord termination and storage. We no longer actively offer this product. The ORM 144 optical distribution box is designed for the placement of 144. The URM LH 144S optical distribution box is designed for the placement of 144 optical splices indoor and outdoor. They allow you to group and terminate fiber at a convenient location. A Fiber Optic Patch Panels includes up to 12 duplex SC connectors, as well as an integrated IDC shroud with strain reliefs that are. Fiber Management Tray also called ODF Distribution Box, Integrated Splicing and Distribution ODF.
