

How much does a portable three-level power distribution box cost

AI Overview

A portable three-level (3-phase) power distribution box typically costs between \$500 and \$3,000, depending on features, amperage, and customization.

Price Range and Factors

The cost of a 3-phase portable power distribution box varies widely based on:

- Amperage and voltage ratings: Boxes range from 20A to 800A, with higher amperage units costing more .
- Number of circuits and outlets: Units with multiple adjustable circuit breakers or specialized outlets (e.g., L21-20, 50A) are more expensive .
- Construction and durability: Heavy-duty, shockproof, waterproof, or stackable enclosures increase the price .
- Certifications: CE, UL, or cULus certifications add to cost but ensure safety and compliance .
- Additional features: Surge protection, remote monitoring, LED indicators, and customizable layouts can raise the price .
- Quantity purchased: Bulk orders often reduce unit cost by 15-30% .

Typical Applications

These boxes are used for:...
