

How much does a trapezoidal European-style cable tray cost

AI Overview

European-style trapezoidal cable trays typically cost between \$10 and \$50 per meter, depending on material, coating, and supplier.

Price Range by Material and Type

- Galvanized Steel Trays: Most common, balancing durability and cost, generally \$10-\$30 per meter. Hot-dip galvanized (HDG) options are more expensive but offer better corrosion resistance .
- Stainless Steel Trays: Corrosion-resistant and suitable for harsh environments, typically \$25-\$50 per meter .
- Aluminum Trays: Lightweight and rust-proof, priced around \$20-\$50 per meter .
- Plastic or FRP Trays: Budget-friendly, often used for light loads or indoor applications, usually at the lower end of the price spectrum .

Factors Affecting Cost

- Tray Design: Trapezoidal or ladder-style trays may cost more than perforated or wire mesh trays due to structural complexity .
- Coating and Finish: Powder-coated or HDG finishes increase durability and price. Pre-galvanized trays are cheaper but less durable outdoors .
- Order Quantity: Bulk purchases can significantly reduce per-meter costs, especially for industrial projects .
- Supplier and Brand: European suppliers like Trayco or Ekabel24 offer high-quality, standards-compliant trays, which may be priced higher than generic imports
