

How much does it cost to install a tray-type cable tray

AI Overview

The installation price of tray-type cable trays typically ranges from \$10 to \$100 per meter, depending on material, tray type, and installation complexity.

Material Costs

The cost of the tray itself varies by material:

- Steel trays: \$5–\$25 per meter, widely used for general-purpose installations due to strength and affordability .
- Aluminum trays: \$6–\$30 per meter, lightweight and corrosion-resistant, ideal for outdoor or humid environments .
- FRP (Fiberglass Reinforced Plastic) trays: \$10–\$50 per meter, suitable for aggressive chemical or wet environments .
- Stainless steel trays: \$20–\$100 per meter, highly durable and corrosion-resistant, used in food, pharmaceutical, or offshore applications . Tray type also affects cost: ladder trays are generally more expensive than solid-bottom or perforated trays due to higher material use and load capacity, but they are easier to install for long cable runs .

Installation and Labor Costs

Installation costs can sometimes exceed the material cost, especially in complex projects. Key factors include:...
