

How much is fiber optic cable per meter

AI Overview

Fiber optic cable costs typically range from \$0.05 to \$6.50 per meter, depending on type, protection, and installation requirements.

Typical Price Ranges

- Indoor simplex/duplex cable: \$0.05–\$0.30 per meter for standard low-fiber-count runs with PVC or LSZH jackets .
- Single-mode outdoor cable: \$0.10–\$0.50 per meter, suitable for longer distances and outdoor exposure .
- Multimode (OM1/OM2/OM3/OM4): \$0.10–\$0.60 per meter for standard indoor or data center applications; higher-end multimode can reach \$1.50–\$6.00 per meter depending on core size and quality .
- Armored cable (steel tape or FRP): \$0.30–\$1.00 per meter for indoor/outdoor protection; outdoor armored or gel-filled cables may cost \$0.50–\$1.50 more per meter .
- Aerial/self-supporting cable: \$0.40–\$1.50 per meter, designed for overhead installation .

Factors Affecting Cost

- Fiber Type: Single-mode (OS2) is generally cheaper per meter than multimode but requires more expensive termination equipment .
- Fiber Count: Higher core counts (e.g., 24-core, 96-core) increase material costs significantly .
- Jacket Material: LSZH jackets are more expensive than PVC but safer in fire-prone areas; outdoor-rated PE jackets add cost for UV and moisture resistance
