

How to fill in Revit cable trays

Overview

Add parameterized tray fill (by % and by total cable weight) and hanger spacing rules of thumb. Your tray schedule should show linear feet, elbows, tees, and supports, producing a credible bill of material for procurement. Above lights, below ducts — coordinate with ceiling plenum. Tees, crosses, and reducers handle every direction change. Noble Desktop's Revit MEP Certification Course covers Revit fundamentals — a strong foundation before specializing in mechanical. Understand how to model a cable tray using the systems tab in the electrical section for effective coordination, especially in the electrical room. Learn how to set the middle elevation, draw through the room, avoid conflicting elements, and create a detailed and clear visualization of the cable. Add cable tray and conduit to your design with or without fittings. com/ Overview: This training program focuses on using Autodesk Revit for designing and managing electrical cable t <https://www.>
