

How to link the lighting distribution box

AI Overview

To connect lighting to a distribution box, you must safely wire the lighting circuits through the appropriate breakers, ensuring correct color-coded connections and proper grounding.

Step 1: Safety First

Before starting, turn off the main power supply at the main breaker to prevent electrical shock. Verify that the circuit is de-energized using a multimeter or voltage tester .

Step 2: Gather Tools and Materials

You will need:

- Screwdrivers and wire strippers
- Wire connectors (wire nuts)
- Electrical tape
- Lighting cables (live, neutral, and earth/ground)
- Circuit breakers suitable for the lighting load
- Junction boxes if needed for multiple fixtures

Step 3: Prepare the Distribution Box

- Mount the distribution box securely on the wall at an accessible height.
- Install the circuit breakers in the appropriate slots for the lighting circuits.
- Connect the incoming live wire (usually brown or red) to the main terminal and th...
