

How to set up a router with a fiber optic module

AI Overview

To install a fiber optic module on a router, use an SFP module compatible with your router, handle it carefully to avoid ESD damage, and connect it to the fiber optic cable following proper safety and alignment procedures.

Required Equipment

- SFP (Small Form-factor Pluggable) module compatible with your router or switch .
- Fiber optic cable with the correct connector type (SC/APC, SC/UPC, or LC depending on your module), .
- ESD protection: wrist strap and ESD-safe mat to prevent electrostatic discharge .
- Optional tools: fiber optic cleaver, termination kit, and visual fault locator for testing .

Safety Precautions

- Always wear a grounded ESD wrist strap and work on an ESD-safe surface to prevent damage to the module .
- Handle the module by its sides or metal cage; avoid touching the optical interface .
- Never look directly into the fiber ends or laser output, even if the module is low-power, to prevent eye injury .
- Keep the work area clean and organized to avoid damaging delicate fiber strands .
