

Hp-g35 Integrated High-Frequency Voltage Power Supply

Overview

It delivers up to 32 kV DC negative high voltage with outstanding stability and safety — fully compliant with China's Power Industry Standards for high-voltage test devices. □□ Key Features: All-in-one, portable & impact-resistant design Built-in capacitor with spark resistance. HP-G35 is our company's newly developed innovative integrated high-voltage power supply product, with the advantage of stable performance, leading technology, portable and safe. The equipment meets the "Standards of the Electric Power Industry of the People's Republic of China-General Technical. Every payment you make on Alibaba. com is secured with strict SSL encryption and PCI DSS data protection protocols Claim a refund if your order is missing or arrives with product issues, plus free local returns for defects on qualifying purchases Xtester-HP-G35 integrated high-frequency and high-voltage power supply Xtester-HP-G35 integrated high-frequency and high-voltage power supply adopts the principle of switch mode power supply, which can output a maximum of 35KV DC negative high voltage. Touch screen, simple setting and operation, intuitive and convenient display. The output high voltage has the function of single pulse and. Introducing HP-G35: The Next-Generation All-in-One High-Voltage Power Supply for Cable Fault Testing We're proud to launch the HP-G35 Integrated High-Frequency High-Voltage Power Supply — a breakthrough solution engineered for modern cable fault detection. Built on years of R&D and deep market. Enter your serial number, product number or product name What can we help you with?

HP-G35 Integrated high frequency high voltage power supply

Product name:integrated high frequency and high voltage power supply;Output mode:pulse output;output voltage:DC negative voltage $\leq 32\text{kV}$;Working current: $\leq 10\text{A}$;Work mode:single pulse, ...

Jun 27, 2026

Huazheng Electric HZ-G35A Integrated high frequency high voltage ...

This product is mainly used for impulse discharging when sample high-resistance fault waveforms of power cable of 35KV and below, and for impulsive discharge when precisely locate fault point.

Mar 24, 2026

HP-G35 integrated high frequency high voltage power source

This product adopts the principle of switching power supply and can output maximum 35KV DC negative high voltage. It equipped with built-in capacitor, vacuum shock ignition, ...

Jun 07, 2026

#cablefaulttesting #highvoltage #powersupply #hpg35 #utilitytech # ...

Built on years of R& D and deep market insight, the HP-G35 combines advanced switching power supply technology with an ultra-compact, integrated design.
