

Inquire about the price of figure-eight optical cable G 657A2

AI Overview

The current market price for G.657A2 figure-8 optical cable is approximately \$25–\$27 per kilometer, with spool pricing available around \$27/km for 50.4 km reels.

Current Market Pricing

- **Spot Price:** G.657A2 bare fiber is trading at around \$25 per kilometer in the spot market, reflecting extreme demand from AI data centers, FTTH projects, and fiber-optic drone applications (GL FIBER, 2026) .
- **Spool/Reel Pricing:** For longer lengths, such as 50.4 km spools, GL FIBER offers \$27 per km, which is competitive while ensuring genuine A2-grade fiber quality (GL FIBER, 2026) .
- **Supplier Variations:** Other major Chinese manufacturers like YOFC, Hengtong, and FiberHome quote \$30–\$35 per km, often with lead times extending into Q1 2027 due to high demand and limited production capacity (GL FIBER, 2026) .

Factors Affecting Price

- **High Demand:** AI infrastructure and FTTH expansion have dramatically increased fiber consumption, with single GPU clusters requiring up to 10 times more fiber than traditional data centers (GL FIBER, 2026) .
- **Military Applications:** Fiber-optic drones consume G.657A2 as a single-use tether, creating urgent, non-recoverable demand (GL FIBER, 2026) .
- **Supply Constraints:** Production is limited by optical preform capacity, which is running at 100%, and G.657A2 consumes more preform material than standard G.6...
