

Installation of Electricity Meter Boxes and Distribution Boxes in Mauritius

AI Overview

Electricity meter boxes and distribution boxes in Mauritius must comply with local regulations, be installed safely, and use certified enclosures suitable for residential, commercial, or industrial applications.

Regulatory Requirements

In Mauritius, the installation of electricity meters and distribution boxes is governed by the Electricity Act 2005 and associated regulations. Customers or prosumers are responsible for providing the meter at their own expense, but no person is allowed to connect or disconnect a meter without authorization from the Central Electricity Board (CEB). Unauthorized tampering can lead to penalties and inaccurate billing (). Installations must allow safe access for meter reading and maintenance.

Types of Boxes

Meter Boxes:

- Designed to house electricity meters securely.
 - Must provide protection against tampering and environmental factors.
 - Typically installed outdoors or in accessible indoor locations.
- Distribution Boxes (DBs):
- Used to house circuit breakers, switches, and other protective devices.
 - Available in surface-mounted or recessed designs....
