

Intelligent Delivery Time for Active Optical Cables

AI Overview

Active Optical Cables typically ship within 1-2 business days, with total delivery time depending on processing, shipping method, and destination.

Processing and Shipping

Most online orders for Active Optical Cables are processed within 1-2 business days, excluding weekends and holidays. Processing time refers to the period between placing your order and when it is shipped. After shipment, the shipping time varies depending on your location and the carrier used. The total delivery time is calculated from the moment the order is placed until it arrives at your address. Customers are notified via email when the order is confirmed and again when it ships, including tracking information and instructions for monitoring the shipment .

Factors Affecting Delivery

- **Destination:** International shipments may take longer due to customs clearance and local regulations. Some countries, like Brazil, require VAT numbers (CNPJ or CPF) to avoid delays .
- **Cable Type and Length:** Specialized or ruggedized AOCs, such as AirBorn FOCuS cables for aerospace and defense, may require additional handling or manufacturing time due to environmental sealing and pre-termination .
- **Availability:** High-speed USB4 or Thunderbolt AOCs, like the OWC 40Gb/s cables, are often in stock and can ship the same day, especially for standard lengths up to...
