

Intelligent OEM of Fiber Reinforcement Tray

Overview

Designed for modern industrial demands, our trays offer exceptional corrosion resistance, high strength-to-weight ratio, and fire-retardant properties—making them ideal for harsh or mission-critical environments. Designed for modern industrial demands, our trays offer exceptional corrosion resistance, high strength-to-weight ratio, and fire-retardant properties—making them ideal for harsh or mission-critical environments. EDGE TRAY by CREO Composites represents our advanced line of FRP (Fiber Reinforced Polymer) cable tray systems, developed in close collaboration with trusted manufacturers. We will reopen Tuesday, May 26, 2026. Have a safe & happy Spring from MFG Tray! Same benefits as our current trays but at a reduced cost – competitive to wood. [Learn More »](#) The perfect accessory for holiday and birthday. Fibre casting, also known as moulded pulp, is a sustainable material produced using a wet pressing process. This involves sucking an aqueous fibre pulp made from recycled paper or cellulose into a mould and then drying it. The result is robust, recyclable and biodegradable moulded fibre parts that. Various features include horizontally oriented adapters with phosphorus bronze split sleeves and angled fiber adapter patch panels. Keyboard, stainless steel cable and fan trays are also available. Power Solution Industries quality plan conforms comprehensively to ISO 9001:2015, ISO 45001: 2018, ISO14001: 2015. The organization defines its quality objectives at the various levels of the company in order to achieve.
