

Ireland SFF optical module manufacturer

Overview

We specialize in producing a wide range of optical transceivers, including SFP, SFF, Mini-SFF, LCC, and Parallel Optical Modules, as well as OLT and ONU solutions. ISO9001, ISO14001, and ISO45001 certified, with FCC, CE, and ROHS 2. 10G-SFP-10 is multi-vendor compatible SFP Transceiver module, operating over double fiber single-mode optical cable with maximum distance 10km. 10G-SFP-10 uses 1310nm transmitting DFB laser and 1310nm PIN receiver and supports 1. What Is a SFP Module?

What Is an SFP Module?

SFP (small form-factor pluggable) modules are optical transceivers that convert electrical signals into optical signals. Unlike their pluggable cousins, these soldered optical modules form the stable backbone of industrial equipment, routers, optical. Our Optoelectronic Components portfolio is all about the emission, detection, sensing and switching of light. Advanced multi-core processor with hardware acceleration for networking applications. We are dedicated to helping you build, connect, protect and optimize your network. Topstar focuses on R&D and has our Top-trans" brand SFP/SFP+/XFP+QSFP/CFP/QSFP28 series of modules, we offer 24*7 hours online service.
