

Korean-certified 6-core fiber optic cable junction box

AI Overview

A 6-core fiber optic junction box is designed for secure termination, splicing, and distribution of optical fibers, typically featuring IP65 protection, durable ABS construction, and compatibility with SC/LC adapters.

Key Features and Specifications

- Capacity: Supports 6-core fiber connections, with options for SC Duplex or LC Quad adapters, and can accommodate splitters for FTTX/FTTH networks .
- Material: High-quality ABS or ABS-PC composite, providing impact resistance, corrosion resistance, and durability for indoor and outdoor use .
- Protection Level: IP65 or higher, ensuring waterproof and dustproof performance; some models offer IP68 sealing for extreme conditions .
- Cable Management: Integrated splice cassettes and fiber management systems maintain proper bend radius ($>40\text{mm}$) to prevent fiber damage .
- Installation: Suitable for wall mounting, pole mounting, or indoor setups; allows for both fusion and mechanical splicing .
- Environmental Tolerance: Operates in temperatures from -40°C to 60°C and humidity up to 93% at 40°C , with air pressure tolerance from 62kPa to 101kPa .
- Accessories: Typically includes labeling paper, heat-shrink sleeves, nylon ties, insulation tape, and fixing screws for secure installation .
