

Landscape Distribution Box Incoming Cable Model

AI Overview

A Landscape Distribution Box is an outdoor, weatherproof enclosure designed to manage incoming power, communication, and AV cables, providing safe, organized, and accessible connections.

Overview

Landscape Distribution Boxes are used in outdoor environments to distribute electrical power, low-voltage communication, and AV signals while blending into the landscape. They are typically weatherproof, tamper-resistant, and compact, allowing for safe cable termination and easy maintenance .

Key Features

- **Weatherproof Enclosure:** Most boxes have an IP43 to IP65 rating, ensuring protection against rain, dust, and harsh outdoor conditions .
- **Material:** Enclosures are made from cold-rolled steel or UV-resistant nonmetallic materials, designed to withstand rough usage and environmental exposure .
- **Cable Termination:** Boxes allow front-end access for cable termination, fuse operation, and connection of multiple circuits .
- **Voltage Compatibility:** Available for low-voltage (120–240V) and medium-voltage (up to 10kV) applications, with options for prewired circuits, fuse bases, and vacuum switches .
- **Mounting Options:** Can be floor-mounted, pole-mounted, or wall-mounted, depend...
