

Latest version of the industry standard for fiber optic cable tray installation

Overview

3-E “Optical Fiber Cabling and Components Standard” was developed by the TIA TR-42. The Fiber Optic Association, Inc. (FOA) was founded in 1995 to help develop the workforce to build the fiber optic networks to support a rapid expansion in communications and the Internet. The charter of the FOA was to promote professionalism in fiber optics through education, certification, and. 'A document established by consensus and approved by a recognized body that provides for common and repeated use, rules, guidelines or characteristics for activities or their results, aimed at the achievement of the optimum degree of order in a given context'. Standards are what makes technology. The new standard from the Fiber Optic Association is subtitled 'Guidelines For The Construction And Installation Of Fiber Optic Cable Plants. A full catalog of TIA specs is at.
