

Manufacturer of Level 2 Construction Site Level 3 Distribution Boxes

AI Overview

Leading manufacturers of Level 2 and Level 3 construction site distribution boxes include YiHe, Lex Products, Wieland Electric, and Elektra Tailfingen, offering robust, compliant, and customizable solutions for temporary power distribution.

Key Manufacturers and Products

1. YiHe (YHACS Series) YiHe produces steel construction site distribution boxes suitable for Level 3 applications. Their boxes are designed for three-phase power supply, with options for 4-core or 5-core sockets depending on neutral line requirements. They are commonly used for powering electric tools, small machinery, temporary lighting, and as terminal distribution points on construction sites. YiHe emphasizes tidy wiring, copper conductors for higher current capacity, and compliance with on-site operational conditions . 2. Lex Products Lex Products offers a wide range of portable power distribution boxes for indoor and outdoor use, including the Load Master™ Series, PowerHOUSE™, and Bento Box®. These boxes cover amperages from 20-800A and feature adjustable circuit breakers, stackable designs, and rugged thermoplastic or aluminum enclosures. They are cULus listed and suitable for construction, industrial, and entertainment applications. Lex Products also provides options with NEMA 3R weather-resistant ratings for outdoor use . 3. Wieland Electric Wieland Electric provides temporary power distribution boxes with flexible configurations, including the gesis® CLASSIC and RST® CLASSIC systems. These boxes offer IP protection from IP54 to IP69, pluggable connectors, and optional multifunction meters for energy monitoring. They are designed for quick commissio...
