

Mexico High Voltage Busbar Manufacturer

AI Overview

Key manufacturers of high voltage enclosed busbars in Mexico include LEV Industrial, IMMSA, and CCT, offering copper and aluminum busbars with custom solutions for industrial and commercial applications.

LEV Industrial

LEV Industrial, based in Tlalnepantla de Baz, Edo. de México, specializes in modular electroduct systems and busbars suitable for high amperage distribution in industrial facilities, data centers, hospitals, airports, and commercial buildings . Their LEV BUSBAR line provides flexible, safe, and cost-efficient solutions with options for motorized or manual operation, interlocks for operator safety, and compatibility with ABB thermomagnetic circuit breakers. They offer custom lengths, bends, tees, and junction boxes, making them suitable for complex high voltage installations .

IMMSA

IMMSA manufactures high-quality copper and aluminum busbars and bushings for electrical OEMs and grid infrastructure across North America . They operate three ISO 9001:2015-certified plants in Mexico City, San Luis Potosí, and Monterrey, providing in-house finishing services such as tin and silver plating, epoxy coating, and precision fabrication. IMMSA's products comply with ASTM B187 and IEC 61439 standards, making them suitable for high voltage applications in industrial, data center, and mobility sectors
