

New Zealand Smart Distribution Box Installation Company

Overview

Entelar Group is New Zealand's leading integrated technology solutions provider, supporting the critical infrastructure that keeps our country connected. Find a Trust Smart Home approved installer near you: Customers rate us 4. Embark on a transformative journey into the realm of Green Smart Living and Working, where innovation converges with environmental responsibility. In both residential and commercial spaces, our Green Smart Solutions integrate cutting-edge technologies to optimise energy usage and enhance efficiency. Founded in Dargaville, Northland, in 1936, McKay has seen significant growth over nearly nine decades, transforming from a local business into a leading force across New Zealand's electrical sector. Despite our national expansion, we have remained true to our Northland roots, with our headquarters. Are you Building or Renovating your dream home and want to go to sleep knowing you have all your technology bases covered before the walls are closed up?

Book a Free personalised home automation technology planning session today. From civil works and fibre deployment to mobile networks, IT distribution, logistics, and IT services - we manage the full lifecycle, from design. Direct Control offers access to cutting-edge, data-driven engineering solutions for building owners and facility managers who want to take a sustainable and environmentally friendly approach to improving building performance, managing efficiencies, and reducing costs.
