

No Encroachment Sign for Distribution Boxes

AI Overview

A No Encroachment sign for distribution boxes is a safety and compliance tool that clearly instructs personnel to keep the area around electrical or utility boxes clear, typically following OSHA standards.

Purpose and Importance

No Encroachment signs are designed to prevent obstruction around distribution boxes, ensuring safe access for maintenance, emergency response, and inspection. Blocking these areas can create hazards, including electrical accidents, delayed emergency response, and regulatory violations. These signs are particularly important in industrial, commercial, and public facilities where foot traffic, forklifts, or stored materials may inadvertently encroach on critical equipment .

Design and Features

- **Prohibition Symbol:** Most No Encroachment signs use a red circle with a diagonal slash to indicate restriction, making them instantly recognizable .
- **Text Instructions:** Common wording includes “Do Not Block,” “Keep Clear,” or “No Storage/Encroachment”. For electrical panels, OSHA-compliant signs often specify a 36-inch clearance .
- **Material:** Signs are typically made from industrial-strength aluminum, plastic, or laminated materials to withstand UV, chemical, abrasion, and moisture exposure .
- **Size and Visibility:** Standard sizes range from 100-300 mm for CAD plans, with lar...
