

Nordic Molded Cable Tray Price Quote

AI Overview

The price of Nordic molded cable trays typically ranges from \$2 to \$25 per meter, depending on material, type, size, and finish, with bulk orders potentially reducing costs.

Price Range and Factors

Cable tray pricing varies widely based on material, design, and load capacity. Common materials include galvanized steel, stainless steel, aluminum, and plastic, each affecting cost and durability. Ladder trays, designed for heavy-duty cables, are generally more expensive, while perforated or wire mesh trays are more budget-friendly and suitable for lighter loads. Surface coatings like hot-dip galvanizing (HDG), powder coating, or pre-galvanized finishes also influence the price. For Nordic's X-Tray molded cable trays, which are premium, customizable, and designed for fast installation with long bracket distances, prices may be at the higher end of the spectrum due to quality and compliance with IEC 61537 standards.

Cost-Saving Considerations

- Bulk orders can significantly reduce per-meter costs.
- Tray type selection: Switching from ladder to perforated trays can save 15% or more if heavy load capacity is not required.
- Installation and shipping: Labor, equipment depreciation, and transport costs can add to the total project cost.
